

## Get Ready to Read Early Literacy Kit Informational Sheet

This Kit contains 36 early literacy activity cards in English and Spanish to be shared with children the year before kindergarten. The activities are divided into three groups designated by the color of the card:

Each card lists the supplies and materials needed for that specific activity. These materials and supplies have been provided for you in the kit. The following is a complete listing of kit supplies and materials:

Also included with each kit is a parent/child feedback form. Please see a children’s librarian for further information on how to best use these activities and for additional library materials, programs and activities that support early literacy.

We invite you and your child to have fun as you explore these activities together and Get Ready to Read!
