## Apps for Children (5 and under)

### **ABC Kids – Tracing & Phonics**

ABC Kids is a free phonics and alphabet teaching app that makes learning fun for children, from toddlers all the way to kindergartners. It features a series of tracing games to help kids recognize letter shapes, associate them with phonic sounds, and put their alphabet knowledge to use in fun matching exercises. Available on Google Play and iTunes.

### **Alien Assignment**

Created by The Fred Rogers Center and featured in USA Today as an innovative kid's app, Alien Assignment encourages problem solving and discovery as children help a stranded family of aliens fix their spaceship. Available on iTunes.

### **ASL Kids - Sign Language**

Get children excited about learning American Sign Language (ASL) by watching other kids sign! The ASL experts in the app are between the ages of 1 and 12, and teach common signs from the ASL dictionary and baby sign language. All hand signs are accompanied by a large image and an audio button designed to stimulate speech and hearing. Available on Google Play and iTunes.

### **Baby Games- Piano, Baby Phone**

This collection of mini-games will help your young child learn first words, discover musical instruments, and more. It's a great way to keep your youngster entertained during those difficult times when you are out and about and waiting unexpectedly. The interface is designed to be friendly for children from 6 to 12 months.

### **Breathe, Think, Do with Sesame**

With Sesame Streets Breathe, Think, Do, children will learn skills such as problem solving, self-control, planning, and task persistence. App available in English or Spanish. Available on Google Play and iTunes.

### **Code Karts Pre-coding for Kids**

With Code Karts, children will learn the fundamentals of code while they speed through a series of logical puzzles presented in the form of a raceway. With over 70 levels, a variety of puzzling obstacles, and two different game modes, there is no shortage of educational content for children to enjoy. Available on Google Play and iTunes.

### **Endless Numbers**

Children will have a blast learning number recognition, sequences, quantity, numerical patterns, and simple addition with the help of the adorable Endless monsters. Available on Google Play and iTunes.

## Apps for Children (5 and under)

### **LetMeTalk- Free AAC Talker**

Providing a voice for everyone, LetMeTalk enables users to create sentences using rows of images. The image database of LetMeTalk contains more than 9,000 easy to understand images from ARASAAC. Additionally, users can add existing images from their device or take new photos with the built-in camera. Available on Google Play and iTunes.

### **Little Stars Toddler Game**

Little children will learn shapes, colors, beginning counting, ABCs and more with this app. It's recommended for children ages 2-5 years. The parent control center allows you to turn specific topics on and off, so you can help your child focus on just the right levels. It's even got a 2-player mode so you can play with baby right on your device!

This app is free to download and use. Parents can record their own responses if they wish so little ones can hear mom or dad's voice.

### **MyBackpack - Waterford Learning**

The creators of Waterford Early Learning presents MyBackpack, a free selection of songs, books, nursery rhymes, and math games that will challenge and engage children from pre-k to second grade with interactive learning activities and beautiful artwork. Available on iTunes.

**Music Sparkles** - Bring the world of music to your toddler's fingertips. They can play a variety of instruments with a tap of their fingers. This app offers 14 amazing instruments to explore, as well as 5 musical loops. There's even a vocal component so kids can begin to learn about do, re, mi.

### **Peek-a-Zoo - by Duck Duck Moose**

With the help of an adorable animals cast, Skylar the Skunk, Sara the Seal, Polly the Penguin, and Squiggle the Squirrel, this award-winning interactive experience helps children learn about animals, emotions, actions and sounds. Available on iTunes.

### **Play and Learn Science**

Play and Learn Science encourages children to see science in their everyday life. Educational games serve as catalysts for real-world exploration by drawing from real-world locations and experiences that children recognize. Family games encourage co-learning with hands-on activities and parent notes! Early learning activities encourage families to "try it" at home and provide tips for conversations, taking the lessons beyond the app. Available on Google Play and iTunes.
